- The data has been extracted from the Constabulary's HR System which is, to all intent a 'living' system in that it is constantly being updated. As such the data can only be verified for the date/time extracted.

- Police forces in the United Kingdom are routinely required to provide statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the data. It should be noted that for these reasons this Constabulary's response to your questions should not be used for comparison purposes with any other response you may receive.
