

# Just a SECOND

**It only takes a second to run  
into trouble.**

**From more expensive insurance to losing  
your licence and means of getting around.**

**Derbyshire**

Making Derbyshire Safer Together

**DERBY & DERBYSHIRE  
ROAD SAFETY  
PARTNERSHIP**

## Next time you get behind the wheel, remember these tips to keep your eyes – and yourself – on the road.

- 🕒 Set up playlists or podcasts before you go.
- 🕒 Don't know where you're going? Check your route and set your satnav running before setting off.
- 🕒 Stop distractions by setting smart watches to do not disturb.
- 🕒 Take a break if you're tired or need to eat or drink.
- 🕒 Think whether you really need to make that hands free call, or if it can wait.
- 🕒 Make sure you're safe to drive – drink and drugs stay in your system longer than you think.

## How are we keeping people safe on the roads?

- 🕒 People's home CCTV, smart doorbells and dashcam footage is helping us catch more dangerous driving than ever.
- 🕒 Our roadside drug tests can catch drug drivers in minutes.
- 🕒 Regular patrols mean we can pull people over who are driving erratically.
- 🕒 We carry out regular operations, for example looking for drivers using their phone.
